

HOW DOES THE SOMOS MEXICANOS STRATEGY WORK?

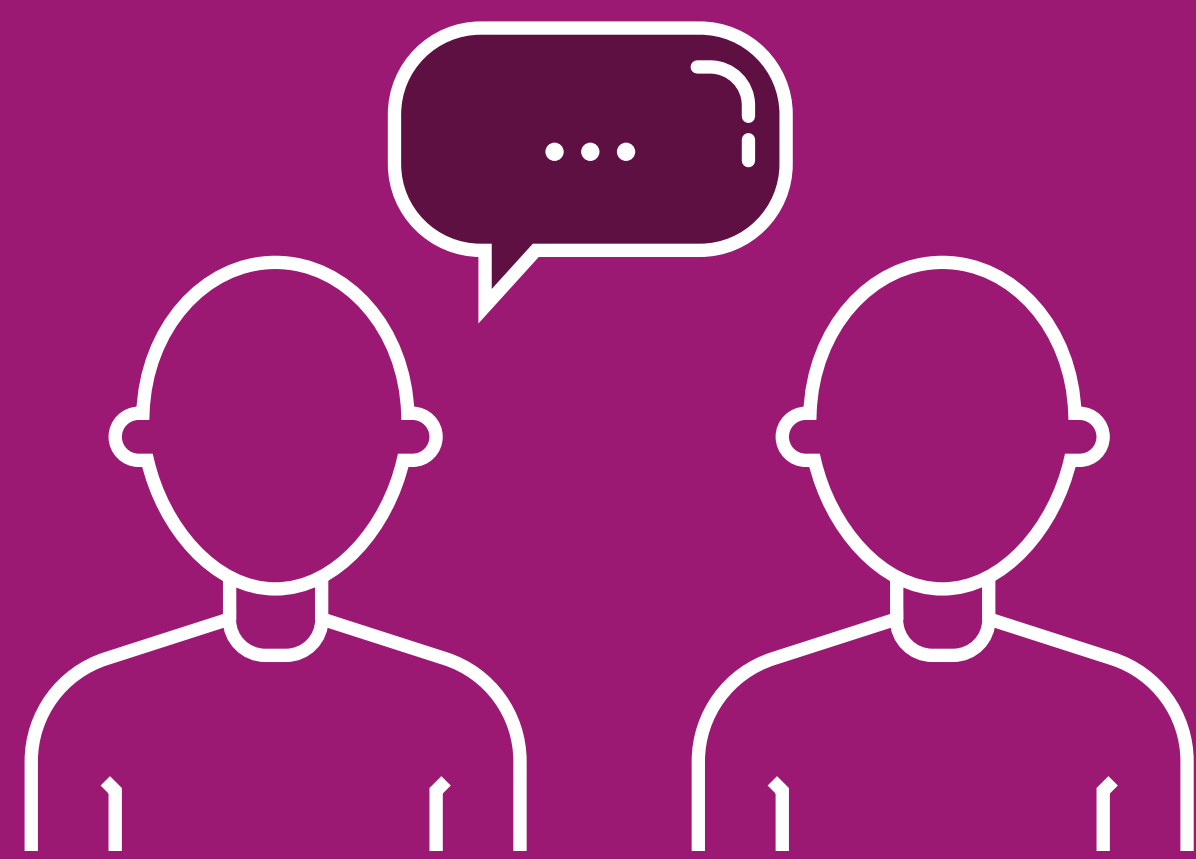

The main objective of this program is to help Mexican citizens to return to their country easily. In order to achieve this:

It **provides information** and guidance about the support programs implemented by the government and private organizations

It is made up of the **actions that benefit** Mexican citizens returning to the country

It offers **personalized attention** to Mexicans who return, either voluntarily or forcibly

It works as a **channel** to help Mexican citizens returning to the country communicate with their families

Thanks to the **SOMOS MEXICANOS PROGRAM**, there is a new hope for repatriated citizens.
