

# HOW CAN I PROTECT MY ASSETS IN CASE OF FACING DEPORTATION?

Make an inventory of all your possessions in the US

Gather and review every document that could help you prove ownership over those assets

Choose a person you can FULLY trust to give him/her power of attorney to claim those assets in case of deportation

Check the different kinds of power of attorney available and pick the most suitable to your situation

Keep a hard copy of ALL your documents in a safe place as well as electronically in a USB or in the Cloud (Google Drive, Dropbox, etc...). It is advisable for the digital copy to be legible and in color
