

GET PROTECTED WITH LIFE INSURANCE FOR MIGRANTS

What is Life Insurance for Migrants?

It is a social protection service with the objective to support you in those aspects where you could be most vulnerable. It helps you improve your life condition, as well as reduce the expenses your family could have if any of its members passed away.

How does it work?

It is a temporary, one-year life insurance for people between 18 and 60.

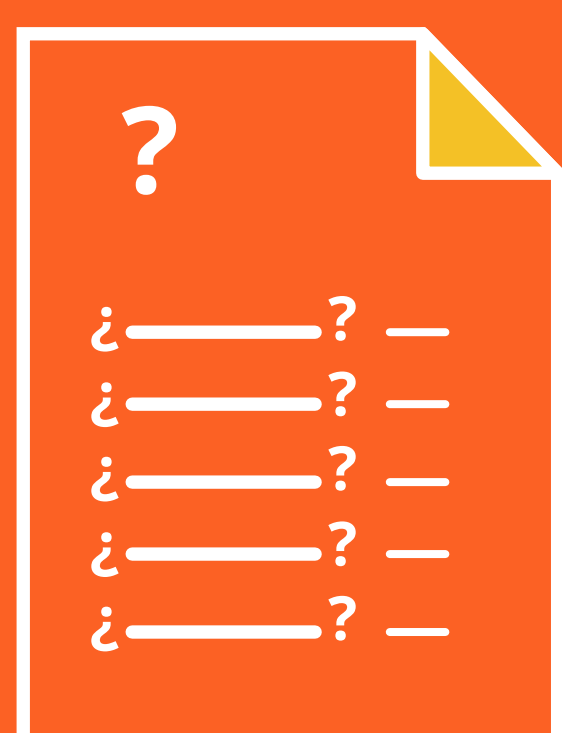

This insurance protects the policyholder living in Mexico and his/her relative living in the US. Hence, if one of the two beneficiaries passes away, the insurance company will pay the survivor the total sum insured.

How can I get this insurance?

There is no need to undergo medical examination; you simply need to fill in a form for the policyholder in Mexico.

Then, go to one of the companies that offer this policy:

- Seguros AFIRME
- Seguros ARGOS
- Seguros Azteca
- Seguros Banorte
